

# SAFETY DATA SHEET

## Section 1 – Product and Company Identification

**1.1 Product Name:** EVOLUTE® CX bulk sorbent  
**1.2 Product Code:** 9601  
**1.3 Recommended Use:** Laboratory chemical  
**Uses advised against:** Not for therapeutic or diagnostic use  
**1.4 Manufacturers Name:** Biotage GB Limited,  
Dyffryn Business Park,  
Hengoed, CF82 7TS  
UK

### 1.5 Contact details:

#### Europe

Telephone: +46 18 56 59 11  
8:00a.m. – 5:00p.m. CET  
e-mail: [eu-1-pointsupport@biotage.com](mailto:eu-1-pointsupport@biotage.com)

#### Japan

Telephone: +81 3 5627 3123  
9:00a.m. – 6:00p.m. local time  
e-mail: [jp-1-pointsupport@biotage.com](mailto:jp-1-pointsupport@biotage.com)

#### North America

Telephone: +1 800 446 4752  
8:00a.m. – 5:00p.m. EST  
Press (3) at the auto attendant  
e-mail: [us-1-pointsupport@biotage.com](mailto:us-1-pointsupport@biotage.com)

#### China

Telephone: +86 21 2898 6655  
8:30a.m. – 5:30p.m. local time  
e-mail: [cn-1-pointsupport@biotage.com](mailto:cn-1-pointsupport@biotage.com)

## Section 2 – Hazards Identification

### 2.1 Classification of the product

This product is not hazardous according to UN GHS, EU Regulation 1272 / 2008 or Directive 67 / 548 / EEC

### 2.2 Label elements

Caution – substance not yet tested completely

### 2.3 Other hazards

Slip hazard – may cause floors to become very slippery if spilt

## Section 3 – Composition/Information on Ingredients

Name:	EVOLUTE® CX			
Synonyms:	Macroporous cross-linked polystyrene / divinylbenzene polymer functionalised with sulphonic acid groups			
CAS – No.	EC – No.	Index – No.	Classification	Concentration
-	-	-	-	-

## Section 4 – First Aid Measures

**4.1 Inhalation:** If inhaled, move affected person to fresh air. If breathing is difficult give oxygen. If breathing has stopped give artificial respiration. Seek medical attention

**4.2 Skin Contact:** Wash with soap and plenty of water. Seek medical attention if irritation develops or persists

**4.3 Eye Contact:** Wash thoroughly with plenty of water for at least 15 minutes, separating the eyelids with the fingers. Seek medical attention

**4.4 Ingestion:** Wash out mouth with copious amounts of water if person is conscious. Never give anything by mouth to an unconscious person. Seek medical attention

## Section 5 – Fire-Fighting Measures

### 5.1 Suitable Extinguishing Media

Use alcohol – resistant foam or dry chemical extinguishers

### 5.2 Unusual Fire Hazards and Explosion Hazards

Will produce black, acrid smoke if burned. May release toxic, corrosive, and / or flammable / explosive vapours in a fire

### 5.3 Special protective equipment for Fire Fighters

Wear self contained breathing apparatus for fire fighting if necessary

## Section 6 – Accidental Release Measures

### 6.1 Personal precautions

Ventilate the area thoroughly and shut off sources of ignition. Use protective equipment as described in Section 8. Avoid raising dust. Avoid breathing dust, vapours, mist or gas

### 6.2 Environmental Precautions

Do not let product enter drains

### 6.3 Methods and materials for containment and cleaning up

Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal. Caution: Slip Hazard. Floor may be slippery even when dry due to spherical beads.

## Section 7 – Handling and Storage

### 7.1 Precautions for safe handling

Avoid contact with eyes. Avoid prolonged or repeated contact with skin. Avoid ingestion and inhalation. Provide appropriate exhaust ventilation at places where dust is formed. Properly designed equipment must be used if the material is to be used in conjunction with strong oxidising agents to prevent a rapid build up of pressure and possible explosion. Do not tightly pack dry resin in glass containers. Dry resin will expand when exposed to solvents and failure to allow for expansion can cause glass containers to shatter. Take measures to prevent the build up of electrostatic charge when handling or processing large quantities

### 7.2 Conditions for safe storage

Keep container tightly closed in a dry and well – ventilated place. Store in a cool place, out of direct sunlight and away from incompatible substances

## Section 8 – Exposure Controls / Personal Protection

Contains no substances with occupational exposure limit values

### 8.1 Personal protective equipment

#### Respiratory protection

Respiratory protection is not required. For nuisance exposures use type P95 (US) or type P1 (EU EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU)

#### Hand protection

Handle with gloves. The selected protective gloves have to satisfy the specifications of EU Directive 89 / 686 / EEC and the standard EN 374 derived from it. Gloves must be inspected prior to use. Use proper glove removal technique (without touching the outer surface of the glove) to avoid skin contact with product. Dispose of gloves after use in accordance with applicable regulations and good laboratory practice. Wash and dry hands

#### Eye protection

Safety glasses with side – shields conforming to EN 166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU)

#### Skin and body protection

Choose body protection in relation to its type, the concentration and the amount of dangerous substances, and to the specific workplace

#### Hygiene measures

Handle in accordance with good laboratory hygiene and safe practice. Wash hands before breaks and at the end of the workday

## Section 9 – Physical and Chemical Properties

### 9.1 Appearance

Form	Spherical beads, 25 – 38µm diameter
Colour	Cream or yellow

### 9.2 Safety data

pH	No data available
Melting point	No data available
Boiling point	No data available
Flash point	No data available
Ignition temperature	No data available
Lower explosion limit	No data available
Upper explosion limit	No data available
Water solubility	Does not dissolve in water

## Section 10 – Stability and Reactivity

### 10.1 Chemical stability

Stable under recommended storage conditions

### 10.2 Conditions to avoid

Avoid temperatures above 200°C

### 10.3 Materials to avoid

Strong oxidising agents

### 10.4 Hazardous decomposition products

Hazardous decomposition products formed under fire conditions – monomers, carbon dioxide and / or carbon monoxide

## Section 11 – Toxicological Information

To the best of our knowledge, the toxicological properties of this material have not been fully investigated

### (a) Acute toxicity

No data available

### (b) Skin corrosion / irritation

No data available

### (c) Serious eye damage / eye irritation

No data available

### (d) Respiratory or skin sensitisation

No data available

### (e) Germ cell mutagenicity

No data available

### (f) Carcinogenicity

No data available

### (g) Reproductive toxicity

No data available

### (h) Specific target organ toxicity – single exposure

No data available

### (i) Specific target organ toxicity – repeated exposure

No data available

### (j) Aspiration hazard

No data available

### (k) Potential health effects

<b>Inhalation</b>	May be harmful if inhaled. May cause respiratory tract irritation
<b>Ingestion</b>	May be harmful if swallowed. May cause irritation of the digestive tract
<b>Skin</b>	Causes skin irritation
<b>Eyes</b>	Causes eye irritation

## Section 12 – Ecological Information

The eco – toxicological properties of this material have not been fully investigated

### 12.1 Toxicity

No data available

### 12.2 Persistence and degradability

No data available

### 12.3 Bio – accumulative potential

No data available

### 12.4 Mobility in soil

No data available

### 12.5 PBT and vPvB assessment

No data available

### 12.6 Other adverse effects

No data available

## Section 13 – Disposal Considerations

### 13.1 Product

Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber

### 13.2 Contaminated packaging

Dispose of as unused product

## Section 14 – Transport Information

Not classified as dangerous goods by ADR / RID, IMDG, or IATA

## Section 15 – Regulatory Information

Not hazardous according to UN GHS, EU Regulation EC 1272 / 2008, or Directive 67 / 548 / EEC.

Caution: This substance has not been fully tested (EC).

### Country Specific

Germany: WGK: 3 (Self – classification)

US (TSCA) Manufactured for research and development only. Note: Chemical substances that are manufactured or imported in small quantities solely for use in research and development are not subject to the notification requirements of the Toxic Substance Control Act (TSCA), 15 USC 2604 (h) et seq. Reference – 40 CFR 720.36

## Section 16 – Other Information

This substance must only be handled by, or under close supervision of those qualified in the handling and use of potentially hazardous substances. This Safety Data Sheet is offered without charge to the clients of Biotage and it is issued only as a guide for safe handling, use, storage, disposal and release. Information contained on this sheet is the most current available to Biotage at the time of preparation but does not purport to be all inclusive or a guarantee as to the properties of the material supplied. Biotage makes no warranties or representations as to the accuracy and completeness of the information contained herein. Biotage shall not be held responsible for the suitability of this information for the user's intended purposes or the consequences of such use, and shall not be liable for any damage or loss, howsoever arising, direct or otherwise.

### Key to Abbreviations

**CAS**: Chemical Abstract Service. **NIOSH**: National Institute for Occupational Safety & Health. **ADR / RID**: Agreement on Dangerous Goods by Road / Regulations Concerning the transport of Dangerous Goods by Rail. **IMDG**: International Maritime Dangerous Goods Code. **IATA**: International Air Transport Association.
