SAFETY DATA SHEET

Section 1 – Product and Company Identification

1.1 Product Name: PS – Trisamine
1.2 Product Code: 800228; 800229; 800230; 800309; 800501
1.3 Recommended Use: Laboratory chemical
   Uses advised against: Not for therapeutic or diagnostic use
1.4 Manufacturers Name: Biotage GB Limited,
   Dyffryn Business Park,
   Hengoed, CF82 7TS
   UK

1.5 Contact details:
   Europe
   Telephone: +46 18 56 59 11
   8:00a.m. – 5:00p.m. CET
   e-mail: eu-1-pointsupport@biotage.com
   North America
   Telephone: +1 800 446 4752
   8:00a.m. – 5:00p.m. EST
   Press (3) at the auto attendant
   e-mail: us-1-pointsupport@biotage.com
   Japan
   Telephone: +81 3 5627 3123
   9:00a.m. – 6:00p.m. local time
   e-mail: jp-1-pointsupport@biotage.com
   China
   Telephone: +86 21 2898 6655
   8:30a.m. – 5:30p.m. local time
   e-mail: cn-1-pointsupport@biotage.com

Section 2 – Hazards Identification

2.1 Classification of the product
   This product is not hazardous according to UN GHS, EU Regulation 1272 / 2008 or Directive 67 / 548 / EEC

2.2 Label elements
   Caution – substance not yet tested completely

2.3 Other hazards
   Slip hazard – may cause floors to become very slippery if spilt

Section 3 – Composition/Information on Ingredients

Name: PS – Trisamine resin
Synonyms: Macroporous cross-linked polystyrene / divinylbenzene polymer functionalised with a tris(aminomethyl)amino group

| Name | PS – Trisamine resin |
| Synonyms | Macroporous cross-linked polystyrene / divinylbenzene polymer functionalised with a tris(aminomethyl)amino group |

Section 4 – First Aid Measures

4.1 Inhalation: If inhaled, move affected person to fresh air. If breathing is difficult give oxygen. If breathing has stopped give artificial respiration. Seek medical attention
4.2 Skin Contact: Wash with soap and plenty of water. Seek medical attention if irritation develops or persists
4.3 Eye Contact: Wash thoroughly with plenty of water for at least 15 minutes, separating the eyelids with the fingers. Seek medical attention
4.4 Ingestion: Wash out mouth with copious amounts of water if person is conscious. Never give anything by mouth to an unconscious person. Seek medical attention

Section 5 – Fire-Fighting Measures

5.1 Suitable Extinguishing Media
   Use alcohol – resistant foam or dry chemical extinguishers
5.2 Unusual Fire Hazards and Explosion Hazards
   Will produce black, acrid smoke if burned. May release toxic, corrosive, and / or flammable / explosive vapours in a fire
5.3 Special protective equipment for Fire Fighters
   Wear self contained breathing apparatus for fire fighting if necessary
Section 6 – Accidental Release Measures

6.1 Personal precautions
Ventilate the area thoroughly and shut off sources of ignition. Use protective equipment as described in Section 8. Avoid raising dust. Avoid breathing dust, vapours, mist or gas.

6.2 Environmental Precautions
Do not let product enter drains.

6.3 Methods and materials for containment and cleaning up
Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed containers for disposal. Caution: Slip Hazard. Floor may be slippery even when dry due to spherical beads.

Section 7 – Handling and Storage

7.1 Precautions for safe handling
Provide appropriate exhaust ventilation at places where dust is formed. Properly designed equipment must be used if the material is to be used in conjunction with strong oxidising agents to prevent a rapid build up of pressure and possible explosion. Do not tightly pack dry resin in glass containers. Dry resin will expand when exposed to solvents and failure to allow for expansion can cause glass containers to shatter. Avoid ingestion and inhalation. Avoid contact with skin and eyes.

7.2 Conditions for safe storage
Keep container tightly closed in a dry and well-ventilated place. Store in a cool place, out of direct sunlight and away from incompatible substances.

Section 8 – Exposure Controls / Personal Protection

Contains no substances with occupational exposure limit values

8.1 Personal protective equipment

Respiratory protection
Respiratory protection is not required. For nuisance exposures use type N95 (US) or type P1 (EU EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection
Handle with gloves. The selected protective gloves have to satisfy the specifications of EU Directive 89 / 686 / EEC and the standard EN 374 derived from it. Gloves must be inspected prior to use. Use proper glove removal technique (without touching the outer surface of the glove) to avoid skin contact with product. Dispose of gloves after use in accordance with applicable regulations and good laboratory practice. Wash and dry hands.

Eye protection
Safety glasses with side – shields conforming to EN 166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

Skin and body protection
Choose body protection in relation to its type, the concentration and the amount of dangerous substances, and to the specific workplace.

Hygiene measures
Handle in accordance with good laboratory hygiene and safe practice. Wash hands before breaks and at the end of the workday.

Section 9 – Physical and Chemical Properties

9.1 Appearance
Form: Spherical beads, 75 – 150μm diameter
Colour: Cream or off – white coloured

9.2 Safety data
pH: No data available
Melting point: No data available
Boiling point: No data available
Flash point: No data available
Ignition temperature: No data available
Lower explosion limit: No data available
Upper explosion limit: No data available
Water solubility: Does not dissolve in water
Section 10 – Stability and Reactivity

10.1 Chemical stability
Stable under recommended storage conditions

10.2 Conditions to avoid
Avoid temperatures above 200°C

10.3 Materials to avoid
Strong oxidising agents

10.4 Hazardous decomposition products
Hazardous decomposition products formed under fire conditions – monomers, carbon dioxide and / or carbon monoxide, nitrogen oxides

Section 11 – Toxicological Information

To the best of our knowledge, the toxicological properties of this material have not been fully investigated

(a) Acute toxicity
No data available

(b) Skin corrosion / irritation
No data available

(c) Serious eye damage / eye irritation
No data available

(d) Respiratory or skin sensitisation
No data available

(e) Germ cell mutagenicity
No data available

(f) Carcinogenicity
No data available

(g) Reproductive toxicity
No data available

(h) Specific target organ toxicity – single exposure
No data available

(i) Specific target organ toxicity – repeated exposure
No data available

(j) Aspiration hazard
No data available

(k) Potential health effects
Inhalation May be harmful if inhaled. May cause respiratory tract irritation
Ingestion May be harmful if swallowed. May cause irritation of the digestive tract
Skin May cause skin irritation
Eyes May cause eye irritation

Section 12 – Ecological Information

The eco – toxicological properties of this material have not been fully investigated

12.1 Toxicity
No data available

12.2 Persistence and degradability
No data available

12.3 Bio – accumulative potential
No data available

12.4 Mobility in soil
No data available

12.5 PBT and vPvB assessment
No data available

12.6 Other adverse effects
No data available
Section 13 – Disposal Considerations

13.1 Product
Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber.

13.2 Contaminated packaging
Dispose of as unused product.

Section 14 – Transport Information

Not classified as dangerous goods by ADR / RID, IMDG, or IATA.

Section 15 – Regulatory Information

Not hazardous according to UN GHS, EU Regulation EC 1272 / 2008, or Directive 67 / 548 / EEC. Caution: This substance has not been fully tested (EC).

Country Specific
- Germany: WGK: 3 (Self-classification)
- US (TSCA): Manufactured for research and development only. Note: Chemical substances that are manufactured or imported in small quantities solely for use in research and development are not subject to the notification requirements of the Toxic Substance Control Act (TSCA), 15 USC 2604 (h) et seq. Reference – 40 CFR 720.36

Section 16 – Other Information

This substance must only be handled by, or under close supervision of those qualified in the handling and use of potentially hazardous substances. This Safety Data Sheet is offered without charge to the clients of Biotage and it is issued only as a guide for safe handling, use, storage, disposal and release. Information contained on this sheet is the most current available to Biotage at the time of preparation but does not purport to be all inclusive or a guarantee as to the properties of the material supplied. Biotage makes no warranties or representations as to the accuracy and completeness of the information contained herein. Biotage shall not be held responsible for the suitability of this information for the user’s intended purposes or the consequences of such use, and shall not be liable for any damage or loss, howsoever arising, direct or otherwise.

Key to Abbreviations
- CAS: Chemical Abstract Service
- NIOSH: National Institute for Occupational Safety & Health
- ADR / RID: Agreement on Dangerous Goods by Road / Regulations Concerning the transport of Dangerous Goods by Rail
- IMDG: International Maritime Dangerous Goods Code
- IATA: International Air Transport Association
